

Summary of Changes

Issue 16 contains the following changes to the previous issue 15:

Code and Appendices A to G:

- New issue number and date.

Code Section 2.1:

- Includes a clarification on alternative tests that do not meet the criteria set out in the ATIEL CoP.

Code Section 8:

- Addition of the Code Section 8 “Summary of Changes”.

Editorial changes:

- Deletion of the blank page after page 4-1.
- For consistency of page numbering, removal of sections 5 and 6 from page 7-1 to new pages 5-1 and 6-1, respectively.

Appendix B:

- Delete all reference to Group VI obsolete base oil.
- Modify tables 4.1.A/B; 4.1.C and 4.2.8.A for requiring to run both “M111 and Sequence VG” when it was “M111 or Sequence VG” in issue 15.

Appendix C:

- Replace in table page C-3 “M111 or Sequence VG” with “M111 and Sequence VG” in the readacross matrix when interchanging Viscosity Modifiers.

Appendix E:

- Addition of Guidelines for ACEA claims representation, the intent is to provide marketers with guidelines for the use of ACEA claims. Changes and additions are shown in red.
